Summary of operations 2015-2016

Evaluation and Effectiveness

Mabobas' Promise Incorporated has three key Strategic goals for the 2015-2019 period:

- Goal 1: Empower Afghan women and children to make a positive and permanent impact on their lives and their community:
- Goal 2: Improve organisational effectivenes:
- Goal 3: Enhance relationships with stakeholders.

These goals reflect the organisation's commitment to transitioning from immediate aid assistance towards development programs that promote long term individual and community empowerment and capacity building through stronger organisational efficiency. These goals form the basis for Mahboba's Promise Incorpated's evaluation of effectiveness for its operations.

The projects implemented by Mahboba's Promise in the 2015-2016 financial year emphasises this commitment to permanent change for our beneficiaries over welfare dependancy. The organisation conducts internal evaluations and reviews projects to monitor progress, risk management and beneficiary impact. Each project concept is developed and assessed on how its goal, objectives and outcomes align with the Strategic Plan. The development of a Logical Framework for each project breaks down the objectives, outputs and outcomes for the project being delivered as well what means of verification and evidence is used to assess how well these are being achieved throughout. These are reviewed regularly in consultation with project staff in Kabul to understand what is working and where changes can be made for better progress.

Through regular communication with the Mahboba's Promise Afghanistan office, qualitative and quantitative data is collected from each project site to assist in the evaluation of project effectiveness and beneficiary impact. Mahboba's Promise Incorporated is in the processes of implementing a regular reporting system for each project which monitors progress in relation to financial management, beneficiary impact, internal operations and learning and growth outcomes to achieve a well-rounded understanding of project progress and outcomes.

Mahboba's Promise Incorporated encourages stakeholders to reach out to the organisation should they wish to offer feedback or make a complaint about an aspect of Mahboba's promise operations in Australia or Afghanistan. Mahboba's Promise Incorporated reviewed and updated its Complaints Handling Policy to make the process for reporting feedback and complaints easier and more inclusive. Mahboba's Promise Incorporated sees any complaint or feedback as a key way to make improvements within the internal operations of the organisation and the activities undertaken.

Mahboba's Promise Incorporated has maintained its strong development presence within Afghanistan for the 2015-2016 financial year and has experienced positive progress for key projects. The year was a turning point for cementing the organisation's commitment to strong organisational operations leading to sustainable development work with long term positive impact for beneficiaries. Education, whether it is formal schooling, vocational training or early childhood development, has been a key focus for the organisation.

Mahboba's Promise Incorporated has expanded operations into a new province this year with the opening of a community garden and greenhouse in Parwan province that offers learning and social networking opportunities for 60 widows in the local area whilst also providing regular access to nutritious fruit and vegetables for the widows' families.

The opening of the Kabul Early Education Centre during the financial year has seen a rapid growth in attendance rate with the project being so popular with the local Kabul community that more teaching staff have been hired to accommodate demand. The project commenced with 26 children attending, of which 60 where non-fee paying. As of the end of financial year, the centre has 62 children attending, of which 50 are fee paying. With fee-paying students subsidising the tuition costs for disadvantaged families, access to early education in the local area has been expanded. This ensures that more children can receive the social, educational and mental development offered by early education that eases the transition into formal schooling year. This project has been so successful that Mahboba's Promise has commenced work to open another centre at Panjshir Hope House in the coming months.

The confectionery factory owned and operated by Mahboba's Promise was the site of key vocational training for 30 widows and older orphans that ran over 6 months of this financial year. Training not only covered confectionery

production and decoration, but also involved business management, accounting and marketing training. Training graduates now work as sales representatives, shop owners and marketing assistants as Mahboba's Promise seeks to expand the production and sales of confectionery. The factory was also awarded a one year contract to supply the Presidential palace in Kabul with confectionery, baked goods and other sweets. This sees the factory deliver 450-500kgs of products to the palace on a weekly basis. The confectionery factory is Mahboba's Promise Incorporated move towards social enterprise, with the factory operating completely self sufficiently.

Financial Health

The 2015-2016 fundraising year saw Mahboba's Promise Incorporated generate more than \$1 million in revenue as per the budgetary expectations of the organisation. This has allowed us to maintain our aid and development work within Afghanistan despite adverse conditions including other prominent international crises being the focus of international attention and a declining exchange rate between the Australian and United States currencies.

The exchange rate gradually deteriorated towards the end of the financial year with the average rate sitting at \$0.712USD to \$1AUD. Mahboba's Promise Incorporated introduced a number of cost saving measures within our Australian office to ensure the organisation's commitment to our beneficiaries in Afghanistan remained strong and the impact of the declining exchange rate had a minimum impact.

Mahboba's Promise Incorporated's operating ratios are quite healthy and as of the end of financial year the organisation's cash balance is sufficient to cover at least 9 months of actual expenses required to operate the organisation.
